Product sheet AM406

A-solar Power Dock for iPhone & iPad

The stylish Solar Power Dock for iPhone and iPad is *the* gadget for 2012!

Charges via USB and solar energy! The powerful 6000mAh internal battery of the Solar Power Dock stores the energy, so you can charge your iPhone or iPad, just when it suits you.

The front of the Power Dock is including with an LED status indicator and test button so you can see how much energy the internal battery has stored. The exterior is finished in rubber-finished black.

Very useful is that the Solar Power Dock syncs with iTunes.

The Solar Power Dock is plug and play: when you slide open the top and put your iPhone or iPad in it, it automatically begins charging.

At the rear of the Solar Power Dock is an integrated USB output, it can be used for USB charging other brands of mobile phones.
